BACKGROUND

Bayside Sculpture seeks to affirm and encourage the innate creativity in each person, particularly through the medium of sculpture and related art forms.

While Bayside Sculpture is open to everyone, there is a particular emphasis on encouraging women to further their artistic development through the medium of sculpture.

We offer a supportive, creative environment where self-expression is encouraged. New ways of exploring the visual arts, particularly sculpture, are promoted and innovative art practices explored.

We also have Bayside Sculpture Gallery on the premises, for the display of student's work and general exhibitions. The gallery is available for public hire.

If you wish to have fun and experience a creative, supportive environment, Bayside Sculpture is the place for you!

TERM 3 CLASSES SCULPTURE

Sculpture is both challenging and a lot of fun, with a wide range of expressive possibilities. Experience is not necessary and you will be enabled to work at your own pace and level. Materials such as clay, plaster, wax, plaster

bandage, wire, hebel and sandstone may be used. Modelling, construction and carving will be offered and processes such as creating armatures, mould-making and casting will be taught. The main thing is that you enjoy what you are doing and are open to the challenge of extending yourself.
